

Design Standards Letter

Letter Number: **D-1960-01**

Letter Date: **01/21/1960**

Effective Date: **01/21/1960**

Section/Plan No.: **None**

Subject: **Bridge Clearances Interstate Routes**

Body

TO ALL DIVISION, DISTRICT AND URBAN ENGINEERS:

Subsequent to issuing Design Letter No. 33, 1959, under date of December 4, 1959, many questions have arisen relative to obtaining and financing 17' bridge clearance, or possibly 16' bridge clearance, at grade separations or interchange structures.

Until these questions have been answered and a definite policy adopted, we suggest that you hold this design letter in abeyance until further instructions are issued by this office.

Plans now in the process of design should conform to the 15' clearance as formerly required.

Further information will be issued by this office later on as soon as some definite proposal is agreed upon by all parties concerned.

C. P. Owens
Engineer of Surveys and Plans
