

Design Standards Letter

Letter Number: D-1970-00

Letter Date: 12/11/1970

Effective Date: 12/11/1970

Section/Plan No.: None

Subject: State Highway Relocations

Body

DEPARTMENT OF THE ARMY
St. Louis District, Corps. of Engineers
210 North 12th Street
St. Louis, Missouri 63101

Mr. R. N. Hunter, Chief Engineer
Missouri State Highway Department
Jefferson City, Missouri 65101

Dear Mr. Hunter:

Reference is made to previous conferences where the Missouri State Highway Department requested that the state highway relocations in the area of the Clarence Cannon Dam and Reservoir Project be designed and constructed by the Corps of Engineers, primarily due to the workload of the highway department.

This District is presently beginning preliminary design on these State highway relocations. The relocations are to be accomplished in-house and to facilitate design and meet the State criteria for highways, a copy of the Missouri State Highway Design Manual and Standard Drawings would be most beneficial. A copy of the bridge Manual has been furnished along with updated revisions.

It is, therefore, requested that a copy of the Missouri State Highway design Manual and Standard Drawings, together with all present revisions, be furnished this District. It is further requested that any future revisions to the Standards be furnished to assure updated design for all highways affected by Corps of Engineers projects.

Sincerely yours,

Milton Mindel
Chief, Engineering Division
