Augusta, Maine 04330

R. N. Hunter, Chief Engineer
State Highway Commission
Jefferson City, Missouri 65101

Gentlemen:

Due to many significant changes in surveying technology, instrumentation, procedures and a recent departmental reorganization, it is necessary for us to update our present survey manual published in 1963. Prior to that date we made an appeal to State Highway Departments throughout the country for information to aid in the development of this manual. We received a very good response and much of this information was included in our final manual.

Again, we are asking aid from other highway departments in updating our manual; and it would be appreciated if you have a manual or any other rules and regulations regarding the conduct and procedures of survey operations, such information be sent to us at your convenience.

Thank you for your cooperation.

Very truly yours,

Richard A. Coleman, Engineer
Location and Survey
Bureau of Highways
