<b>NOTE</b>	<b>EXPLANATION</b>
<b>1</b>	The following listing shows the additions, revisions and deletions made to the computer pay items catalog containing English and Metric pay items between July 1 and September 30, 2000. The following additions, revisions and deletions are effective October 1, 2000.
<b>2</b>	Effective October 1, 2000, the Design Standards Section of the General Headquarters will be changing how revisions are done in the bid item database by adding an alphanumeric character at the end of the existing number to indicate a revised item. For example, 403-60.00, if revised would become 403-60.00A. This will eliminate creating an excessive amount of new numbers in the database.
