Body

Questions concerning the distribution of revisions to bid items should be directed to General Headquarters, Design Standards Section, telephone number (573) 751-4659 or (573) 526-2903.

NOTE	EXPLANATION
1	The following listing shows item numbers in the computer pay items database (containing both English and Metric pay items) that were added, revised or made obsolete between October 1 and December 31, 2000. The following pay item changes are effective January 2, 2001.
2	Effective October 1, 2000, the Design Standards Section of the General Headquarters began changing how revisions are done in the bid item database by adding an alphanumeric character at the end of the existing number to indicate a revised item. For example, 403-60.00, if revised would become 403-60.00A. This process eliminates creating an excessive amount of new numbers in the database.
