Subject: Computer Stored Pay Items

Body

 Questions concerning the distribution of revisions to bid items should be directed to General Headquarters, Design Standards Section, Dan Tschirgi (573) 526-2924 or (573) 526-2903.

NOTE	EXPLANATION
1	The following listing shows item numbers in the computer pay items database (containing both English and Metric pay items) that were added, revised or made obsolete between April 1 and June 30, 2001. The following pay item changes are effective July 1, 2001, for jobs to be let after October 1, 2001.
2	Effective April 1, 2001, for pay item revisions that involve only a change in units or item description, the item number will not change. For a material or process change that could change the cost of an item, an alphanumeric character will be added at the end of the existing number to indicate a revised item. For example, 403-60.00, if revised would become 403-60.00A. This process eliminates creating an excessive amount of new numbers in the database.
