

Design Standards Letter

Letter Number: **G-1960-14**

Letter Date: **05/23/1960**

Effective Date: **05/23/1960**

Section/Plan No.: **None**

Subject: **Letting Schedule 1961 Fiscal Year**

Body

TO ALL DIVISIONS, DISTRICT AND URBAN ENGINEERS:

Under separate cover we are mailing you a few copies of the letting schedule as prepared by this office for the 1961 Fiscal Year. We are limiting the supply to distribution among your key personnel only as we feel that this schedule contains confidential information so far as estimated cost of the individual projects is concerned. The letting dates suggested by you in previous correspondence have been used in arranging the various projects listed except in a few cases where detailed plans other than road plans could not be completed in time for that letting.

Listing of federal-aid funds involved and totals by quarters is for our information in meeting contract control requirements. A few of the resurfacing projects listed have not been approved by our State Highway Commission as of this date, but we intend to request Commission approval at the next meeting, and you will be notified accordingly through an advance copy of the Commission minute.

The main purpose for issuing this letting schedule is to assist all Divisions and Districts involved in concentrating their efforts on specific projects so that all work programmed may be placed under contract as funds are allotted, which is now on a quarterly basis instead of an annual basis.

It is, therefore, very essential that we arrange our work to meet the July 28, 1960 letting, and to keep on schedule letting-by-letting throughout the remainder of this Fiscal Year.

**C. C. Tevis
Engineer of Surveys and Plans**
