Letter Date: **07/07/1961**

Effective Date: **07/07/1961**

Section/Plan No.: **None**

Subject: **Special Provision on Scales and Scale Pit for Weigh Stations**

Body

MEMO TO DESIGNERS:

Attached hereto are several copies of a Special Provision on SCALES and SCALE PIT for Weight Stations, and attached drawings for the installation of same. These documents were prepared by the Division of Maintenance in cooperation with this office and will be used for new weight station installations on future projects.

Mr. Whitton's memorandum of November 18, 1960, states that the following items should be included in the design plans and in the construction contract:

"Grading, paving of ramps and parking area, drainage, scales, scale pits, installation of scales. The scales, scale pits and installation of scales should be shown as a separate item since they will be paid for from Highway Planning funds. The scale house will be built from maintenance funds by that department."

You are requested to review plans calling for weight stations and use this special provision on new installations.
