

Design Standards Letter

Letter Number: **G-1961-14**

Letter Date: **03/02/1961**

Effective Date: **03/02/1961**

Section/Plan No.: **None**

Subject: **Special Provisions**

Body

TO ALL DIVISION, DISTRICT AND URBAN ENGINEERS:

Attached hereto is a copy of each of the following Special Provisions which have been recently adopted as standard to be inserted in the contract by the Main Office on applicable projects.

1. Highway Signing - This special provision will permit the use of fluorescent sign lighting fixtures other than those shown on the Standard Drawing providing they are equivalent and meet the approval of the engineer.

It also permits the use of ready-mixed sign enamels and paints of formulations other than that specified in Section 146.6 of the Standard Specifications.

2. Plant Mix Bituminous Surface - This special provision is used to revise the mixing time of Plant Mix Bituminous Surface to require a minimum mixing time.

3. Standard Timber and Temporary Bridges - this special provision specified the species and grade of lumber and timber for standard timber and temporary bridges in compliance with Section 150.3.1 of the Standard Specifications.

4. Guard Rail - This special provision is used to more specifically set out material requirements for beam type guard rail.

These special provisions are submitted for your information only and should not be reproduced and included in the special provisions by the Districts.

C. C. Tevis
Engineer of Surveys and Plans
