

Design Standards Letter

Letter Number: **G-1961-20**

Letter Date: **03/17/1961**

Effective Date: **03/17/1961**

Section/Plan No.: **None**

Subject: **Design Manual Revisions**

Body

TO ALL DIVISION, DISTRICT AND URBAN ENGINEERS:

We are mailing under separate cover several copies of pages in the Design Manual that have been revised to include changes in policy and procedures and to correct some of the inconsistencies in the original copy. The old pages should be removed and destroyed and the new ones inserted to replace them. A revision date has been inserted at the top of all pages on which revisions were made in order that you may determine if a particular manual contains the latest revisions.

For your convenience , we have attached a list of the revised pages dated March 1, 1961 along with a tabulation to assist in locating the revisions made thereon.

We did not reprint pages that contained only minor errors that will not affect policy or procedure. These errors will be corrected later when more important revisions are made on the same page.

Only a few of these corrections will affect plans partially completed. The attached tabulation contains comments on the application of these revisions.

**C.C. Tevis
Engineer of Surveys and Plans**
