

Design Standards Letter

Letter Number: **G-1961-24**

Letter Date: **03/29/1961**

Effective Date: **03/29/1961**

Section/Plan No.: **None**

Subject: **Design Manual Revision**

Body

TO ALL DIVISION, DISTRICT AND URBAN ENGINEERS

We are mailing under separate cover several copies of Figure 14.26, Weight Station Layout, in the Design Manual that has been revised to include the following changes.

- 1. Revised deceleration and taper to provide for 250' of taper and a 400' deceleration lane.**
- 2. Revised tangent length of ramp to scale house from 150' min. to 250'.**
- 3. Require construction joints in pavement 24' each side of the center of the scale house.**
- 4. Require 50' of "Type A Curb" at scale house.**

Revisions 2, 3, and 4 should be included in plans for all projects not under construction. Revision 2 should be applied to all partially completed plans provided it will not cause a delay in letting the project.

The revised Figure 14.26 should be inserted in the manual and the old copy removed and destroyed.

**C. C. Tevis
Engineer of Surveys and Plans**
