

Design Standards Letter

Letter Number: G-1961-69

Letter Date: 09/14/1961

Effective Date: 09/14/1961

Section/Plan No.: None

Subject: Revised Standard Drawing 80.40 Concrete Manholes

Body

TO ALL DIVISION, DISTRICT AND URBAN ENGINEERS:

We are furnishing you under separate cover several 8 1/2" x 11" copies of revised standard Drawing 80.40.

The class of casting for the Type 1 Frame and Cover has been reduced from A.S.T.M. Class 50 to A.S.T.M. Class 35. Class 50 castings are not readily available and would require special manufacturing which would result in an increased cost. After further investigation of the stresses that these castings will be subjected to, we believe that a class 35 casting, which is readily available, will be satisfactory.

Additional prints of this standard are available upon request.

**C.C. Tevis
Engineer of Surveys and Plans**
