

Design Standards Letter

Letter Number: G-1962-13

Letter Date: 06/05/1962

Effective Date: 06/05/1962

Section/Plan No.: None

Subject: 1963 Flying Program

Body

ALL DIVISION , DISTRICT AND URBAN ENGINEERS:

It is necessary to plan our 1963 Flying Program in the near future so that photography can be accomplished during the period of December 1 to April 15.

We will appreciate your reviewing your Interstate, Primary, Supplementary and Urban programs to determine the projects on which you would like to have a survey accomplished by photogrammetric methods. We would also like to have your recommendations for projects that are on or expected to be on a future program, and where reconnaissance photography is desirable.

Bridge surveys involving contours should be considered for programming. Consideration should be given to the size of the survey and proposed construction schedules in submitting your recommendation for bridge surveys.

Your comments and recommendations regarding projects suitable for post-flight ground control surveys will be appreciated.

Please furnish us with the county, route, location, and length, along with the approximate date you will need manuscripts to meet your work schedule.

Please submit your replies to this letter not later than June 22.

R. N. Hunter
Engineer of Surveys and Plans
