## Body

-----  
ALL DIVISION, DISTRICT AND URBAN ENGINEERS

We are furnishing you under separate cover, several copies of revised pages 14.17 and 14.18 for the Design Manual.

The dates set out in Tables 14.8 and 14.9 have been revised to provide a 60-day overlap in the two seasonal periods for the various seeding mixtures. The overlap period will provide more flexibility for the contractor in ordering and applying seeding mixtures.

The new dates are effective immediately and should be included in the special provisions where applicable for all projects that have not been submitted to this office.

Engineer of Surveys and Plans
