Subject: Photogrammetry 1964 Compilation Program

Body

ALL DIVISION, DISTRICT AND URBAN ENGINEERS

Attached is a schedule for the photogrammetric compilation of projects on which we have photography at the present time or will have photography at the end of the forthcoming photography season.

The estimated completion date is the date we expect to deliver the manuscripts to the Districts. Adherence to these dates is contingent upon the photography being obtained and the field control being completed well in advance of these dates.

It is our desire to follow this schedule as closely as possible. We realize changes will occur, but we wish to keep them to a minimum as far as changes in our construction program will permit. Please acknowledge receipt of this letter and advise if the priority order and the estimated completion dates meeting with your approval.
