With the establishment of the new Division of Right-of-Way, it will be necessary to furnish Mr. P. G. Parrish with a copy of our letters to the Districts pertaining to right-of-way approval. It is no longer necessary to give the Legal Division a copy of these letters.

It is becoming increasingly important to eliminate, if possible, outer roadways that are so located that they create a problem in maintenance. Right-of-way plans should be reviewed in this respect, and if the outer roadway is hard to get to for maintenance purposes, the matter should be called to the Districts' attention.
