Letter Date: 02/19/1964

Effective Date: 04/01/1964

Section/Plan No.: None

**Subject: Design Manual Revision and Special Provision
Weigh Station and Scales**

Body

ALL DIVISION, DISTRICT AND URBAN ENGINEERS AND CHIEF COUNSEL

We are furnishing you under separate cover several copies of the following revised Figures of the Design Manual.

Figure 14.25 has been revised to change sag vertical requirements to agree with Table 14.20.

Figure 14.26 has been revised to change design requirements for weigh stations. The major changes provide for parking areas of 40,000 square feet minimum in lieu of 12,000 square feet, aggregate surfacing of parking areas in lieu of bituminous surfacing and for future lighting of scale house.

We are also furnishing you several copies of a revised special provision for scales (April 1964). The special provision has been changed for clarification and to permit use of additional types of scales.

Each district office is being furnished one reproducible copy of the typical layout for weigh stations for their use.

The new requirement for weigh stations will be in effect for all future contracts beginning with the April 1964 Letting.

Additional copies of the above documents will be furnished upon request.

L. V. McLaughlin
Engineer of Surveys and Plans
