

Design Standards Letter

Letter Number: G-1964-11

Letter Date: 03/06/1964

Effective Date: 03/06/1964

Section/Plan No.: None

Subject: Design Manual Revisions

Body

ALL DIVISION, DISTRICT AND URBAN ENGINEERS AND CHIEF COUNSEL

We are furnishing you under separate cover several copies of the following revised pages of the Design Manual.

Page Remarks

3.5 Revised paragraph (3) Section 3.7.1 to clarify policy for distribution of preliminary plans

5.1 Section 5.2 was revised to change design traffic for Interstate System to that projected 20 years beyond the P.S.& E. approval date.

14.11 Table 14.6 revised to correct fill height for Class A bedding, reinforced concrete pipe.

14.49 Subsection 14.3.23.7 was revised to provide that capital letters be used to identify subsections of State Section projects that are to be broken down into lengths of five (5) miles or less. This is consistent with method shown on Figures 12.6 through 12.9.

15.41 Revised to clarify present design practices for preliminary detail plan sheets.

15.46.1 Tables for conduit and cable revised to be consistent with revised
15.46.2 standards and specifications previously furnished.

Figure 15.13 Revised to clarify.

Figure 15.14 Revised to clarify present phasing practices. The Main Office will furnish the type of phasing for Diamond Type Interchanges until a study of phasing for these interchanges has been completed.

Figure 15.19 Revised to show preliminary design of most common type of intersection.

Figure 15.21 Revised to show necessary sheets for complete detail plans of an
through 15.22.3 intersection.

Figure 15.22.4 Revised to clarify.
through 15.22.8

Additional copies will be furnished upon request.

L. V. McLaughlin
Engineer of Surveys and Plans
