Attached is an advance copy of revised sections of the Policy, Procedure, and Design Manual concerning pedestrian facilities.

You will note that subsection 14.3.34.4.6 covering pedestrian facilities for major streets has been subdivided with special emphasis given to the subjects of sidewalks and pedestrian grade separations.

Also, subsection 14.3.34.5.6 7 covering pedestrian facilities for expressways at grade has been revised to provide direct reference to the criteria set out for pedestrian facilities for major streets.

It is expected that these revisions will be placed in effect immediately and that this advance revision will govern until such time as the Design Manual is revised.
