

# Design Standards Letter

**Letter Number: G-1965-11**

**Letter Date: 03/02/1965**

**Effective Date: 03/02/1965**

**Section/Plan No.: None**

**Subject: Design Manual Revisions**

## Body

-----  
ALL DIVISION, DISTRICT AND URBAN ENGINEERS AND CHIEF COUNSEL:

We are furnishing you herewith several copies of the following revised pages of the Design Manual.

Pages 4.1 and 4.2. Section 4.3.2 Bridge Replacements and/or Short Construction Project. This section has been revised to require a brief report to be prepared by the District and submitted to the Main Office, along with the necessary prints or maps showing the contemplated improvements.

Page 14.23. Section 14.3.12.2.3 Borrow or Waste. This section has been revised to clarify the procedure to be followed with respect to waste areas. Normally a mandatory site for the disposal of surplus excavated materials will not be shown on the plans, except when such site is the most economical in respect to a particular Federal-aid project, or a combination of Federal-aid highway projects. Normally the contractor will be permitted to select waste areas for all Federal aid projects. Disposal sites may be shown for all state projects when necessary.

L. V. McLaughlin  
Engineer of Surveys and Plans
