

Design Standards Letter

Letter Number: G-1965-31

Letter Date: 07/12/1965

Effective Date: 07/12/1965

Section/Plan No.: None

Subject: Design Manual Revisions

Body

ALL DIVISION, DISTRICT AND URBAN ENGINEERS AND CHIEF COUNSEL:

We are furnishing you under separate cover several copies of the following new or revised pages for the Design Manual.

Page 4.1 Section 4.2, first sentence has been revised to qualify the reconnaissance studies to be made by the Main Office.

Section 4.3.1 has been revised to require a list of individuals or agencies who participated in the right-of-way cost for the original construction of the road. This information is essential to determine if such right-of-way was furnished at no cost to the State.

Section 4.3.2 has been revised to limit projects of this type to approximately one mile in length.

Page 4.2 Section 4.3.2 has been revised to require a list of individuals or agencies who participated in the right-of-way cost for the original construction of the road.

Page 4.3 is a new page necessitated by the preceding revisions.

Page 14.41, Section 14.3.16.7 has been revised to require that, in addition to the normal construction notes for field entrances, private entrances, and commercial entrances, the plans must show the right angle station from the main roadway or outer roadway to the intersection of the right-of-way line with the centerline of such entrances.

Page 14.42, Sections 14.3.18.4 and 14.3.18.5 have been revised to delete references to class of cast iron for manhole frame and cover. The class of cast iron is shown on Standard Drawing 80.40 in the notes.

Figure 14.33 has been revised to indicate a method of showing the station of the intersection of the right-of-way line with the centerline of field, private, and commercial entrances as

required in Section 14.3.16.7.

L. V. McLaughlin
Engineer of Surveys and Plans
