

# Design Standards Letter

**Letter Number: G-1965-52**

**Letter Date: 12/27/1965**

**Effective Date: 02/25/1966**

**Section/Plan No.: None**

**Subject: Special Provisions Revised and Deleted**

## Body

-----  
ALL DIVISION AND DISTRICT ENGINEERS AND CHIEF COUNSEL:

We are furnishing you herewith several copies of the following revised special provisions:

Bearing Pile (January, 1966). This three page special provision is a revision of the current bearing pile special dated 2-1-62. It will be used as designated by the Division of Bridges for applicable projects, beginning with the January 21, 1966 letting.

Curling (Precast Concrete) (Concrete Box Girders) (January, 1966). This special provision has been revised for the reason that a portion has been included with the revised Bearing Pile special provision. This special is also effective with the January 21, 1966 letting, and must be included when the Bearing Pile ;special provision is used.

Prestressed Concrete Piling (July, 1962). This special provision has been completely included, with some modification, in the revised Bearing Pile special provision and is deleted as a separately titled special provision.

Metal Galvanizing (February, 1966). This special provision has been revised to modify the requirements of the zinc alloy stick used to repair galvanized materials on which the galvanizing has been damaged. This special will be included with applicable bridge and signing projects, beginning with the February 25, 1966 letting.

L. V. McLaughlin  
Engineer of Surveys and Plans
