

Design Standards Letter

Letter Number: G-1966-00

Letter Date: 09/01/1966

Effective Date: 09/01/1966

Section/Plan No.: None

Subject: State Supplementary Highways High Type Design

Body

ALL DIVISION AND DISTRICT ENGINEERS AND CHIEF COUNSEL:

When reviewing State Supplementary Highways involving high type design for right-of-way approval, all sub-standard features (if any) must be called to Mr. Watkins' attention. If the project is financed with FAS funds (under the Secondary Road Plan), Mr. Watkins will inform the Bureau of Public Roads about the sub-standard items. This will consist of any sub-standard items listed by the District in the letter of transmittal, as well as other items you note in checking against General Design Date requirements.

Approval to acquire right-of-way shall not be issued until sub-standard matters are resolved. A copy of the letter must also be furnished the Divisions of Accounting and Right-of-Way since the Federal Aid Section does not issue "A": date letters on FAS projects. Also, please designate the project or section to which right-of-way costs are chargeable.

H. F. Henrickson
Engineer of Design
