

Design Standards Letter

Letter Number: G-1966-10

Letter Date: 03/04/1966

Effective Date: 04/01/1966

Section/Plan No.: None

Subject: Revised Standard Drawing and Special Provisions

Body

ALL DIVISION AND DISTRICT ENGINEERS AND CHIEF COUNSEL:

We are furnishing you herewith several copies of the following revised Standard Drawing and Special Provisions.

Standard Drawing

Standard Drawing 70.03 has been revised to add Item 40, Junction Box, to the List of Materials and to indicate the location of same on the Front Elevation. This junction box is intended to be used when more than one circuit enters the pole in lieu of the use of a concrete handhole. This revision will be used in applicable projects beginning with the April 1, 1966 Letting.

Special Provisions

Plant Mix Bituminous Surface and Leveling Course. This special provision was formerly titled Plant Mix Bituminous Surface, but has now been expanded to include Leveling Course. The revision consists of the addition of a phrase to the Leveling Course specification whereby such material may be placed to a maximum of four-inch compacted thickness in a single course. This special provision will be used, where applicable, beginning with the April 29, 1966 Letting.

Structural Steel (Bridges). This special provision has been revised to clarify the fact that the prices shown thereon by the contractor include sales or use tax. This special provision will be used where applicable beginning with the April 29, 1966 Letting.
