

# Design Standards Letter

**Letter Number: G-1966-12**

**Letter Date: 03/14/1966**

**Effective Date: 04/29/1966**

**Section/Plan No.: None**

**Subject: Special Provisions Section 72 Highway Signing - Section 142 Highway Sign Materials Section 146 Sign Enamels and Paints**

## Body

-----  
ALL DIVISION AND DISTRICT ENGINEERS

We are furnishing you herewith several copies of the subject special provisions. These special provisions are to be included in applicable signing projects and will replace entirely the special provision on Highway Signing having a first page date of May, 1965.

Section 72 Highway Signing is now a separate special provision.

Section 142 Highway Sign Materials and Section 146 Sign Enamels and Paints are combined in one special provision to cover the material requirements of Section 72.

Signing projects will necessitate the inclusion of all of these special provisions.

Some of the major changes consist of:

1. Material requirements updated.
2. Reference to four-pound sign posts deleted.
3. Trenching and Backfilling and Cable-Conduit added to avoid necessity of including special provision on Highway Lighting.
4. Rigid Steel Conduit added to avoid necessity of including special provision on Traffic Signals.

Numerous other minor revisions and corrections have been made which will necessitate a complete review of these special provisions.

These special provisions will be included in applicable projects beginning with the April 29, 1966 Letting.

L. V. McLaughlin
