

Design Standards Letter

Letter Number: G-1968-06

Letter Date: 02/26/1968

Effective Date: 02/26/1968

Section/Plan No.: None

Subject: Borrow Easements

Body

ALL DIVISION AND DISTRICT ENGINEERS AND CHIEF COUNSEL:

This letter supersedes and voids General Letter No. 4, 1968 of like title, issued February 15, 1968.

Costs of borrow easements obtained on right-of-way projects are not accountable as a right-of-way item. However, such costs are charged to the construction project. Therefore, it will be necessary for the Division of Accounting to transfer borrow easement charges, originally made to a right-of-way project, from that project to the applicable construction project.

In order to furnish Accounting with this information, you are requested to complete the data required by Form SP-26, a blank copy of which is attached hereto for your information. Please submit this form in duplicate with your letter of transmittal when forwarding plan tracings for all construction projects, provided, of course, that borrow easements are involved.

Please examine your active construction projects, and if any of them involve borrow easements, you should submit to this office, as soon as possible, the data required by Form SP-26.

Your attention to this matter will be appreciated.

L. V. McLaughlin
Division Engineer
Surveys and Plans
