Letter Date: 06/10/1968

Effective Date: 08/01/1968

Section/Plan No.: None

Subject: Drawing 84.04 Bituminous Drain Basin and Shoulder Treatment at Bridge Ends

Body

ALL DIVISION AND DISTRICT ENGINEERS AND CHIEF COUNSEL:

We are furnishing you several copies of the revised subject drawing which will be used where applicable beginning with the August, 1968 Letting.

The revisions to this drawing consist of adding the 3/8" steel bars to the inlet end of the 8-inch pipe, and adding three cases showing the drain basin treatment where the road under is skewed.

The skewed treatment is necessary to fit the method of terminating safety zones at bridges, a sketch of which was furnished you by letter of May 23, 1968.

L. V. McLaughlin
Division Engineer
