ALL DIVISION AND DISTRICT ENGINEERS AND CHIEF COUNSEL:

We are furnishing you herewith several 8 1/2" x 11" prints of certain drawings which have been updated or revised as necessary to correspond with the Standard Specifications for Highway Construction, 1968.

These drawings are in addition to those furnished you by General Letter No. 29, 1968, dated September 4, 1968.

Major revisions are as follows:

- 1) Previous drawing 43.10 has been separated into two special sheets, i.e., one for pavement with lip curb and one for pavement without lip curb.
- 2) Drawing 503.00 - Table of pavement exceptions and areas revised consistent with present bridge widths. Shoulder tapers and drainable information removed.
- 3) Previous drawing 86.01 has been separated into two drawings, i.e., 606.40 - Guard Cable, and 606.50 - Guard Fence. Reduced six of posts and cable of guard cable.
- 4) Drawing 607.10 - Revised several member sizes in table for various heights of fence. Indicated direction of barbed wire extension arm bracket.
- 5) Drawing 609.00 - eliminated Type C concrete curb and gutter for bridge approach.
- 6) 807.00 - Glass Fiber Mat. New drawing which in past was handled as a special sheet. Permitted several types of "T" pins.
- 7) Previous drawing 71.04 covering detector posts with mast arms has been

deleted.

In addition to the two drawings covering Typical Details for Widening and Resurfacing, the following drawings are transmitted with this letter.
