

Design Standards Letter

Letter Number: G-1969-52

Letter Date: 11/07/1969

Effective Date: 11/07/1969

Section/Plan No.: None

Subject: Sign Sizing Program

Body

ALL DIVISION AND DISTRICT ENGINEERS

A computer program has been developed for use in sizing and locating copy on signs. This program is available for immediate use.

Furnished with this letter are a limited number of booklets entitled "Sign Sizing Program - Input Instructions". The instructions contained in this booklet are illustrated and should be self-explanatory. Page 25 of this booklet provides procedural sequence information from input data to output data to plan preparation.

Also furnished with this letter is Form SP-310 for submitting input data.

We believe this program will prove most useful and time saving. We are, therefore, urging maximum use of the program, when applicable, in plan preparation.

A brief discussion of this program will be held at the Surveys and Plans meeting scheduled for November 14, 1969.

Leland D. Fletcher
Division Engineer
Surveys and Plans
