

Design Standards Letter

Letter Number: G-1969-57

Letter Date: 12/17/1969

Effective Date: 12/17/1969

Section/Plan No.: None

Subject: Design Manual Revision SECTION XIV PLANS Safety Zones

Body

ALL DIVISION AND DISTRICT ENGINEERS

As a result of recent Design Committee action, "Safety Zones" will be discontinued on roadways having less than 750 vpd present (construction year) traffic, regardless of the design speed or design traffic volume. The appropriate typical section based on the design traffic will still be used, except that safety zones will not be provided.

Attached are revised pages 14.64 and 14.65 and new page 14.64.1 of the Design Manual showing this change.

This criteria will apply to all projects in which design has not progressed to the stage that additional work would be necessary to comply.

Leland D. Fletcher
Division Engineer
Surveys and Plans
