Reference is made to General Letter No. 6, 1968, and the requirement to submit Form SP-26 providing costs of borrow easements secured on any project. This is again to remind you of the necessity of providing this data.

To guarantee that the information is provided to the Division of Accounting, the procedure will be changed on all future submittals. One copy of Form SP-26 will be furnished with the tracings for each project. A duplicate copy of Form SP-26 should be furnished directly to the Division of Accounting. In order that proper auditing can be made for each project, your cooperation is solicited.

We are furnishing a new supply of Form SP-26, indicating that the second copy is to be submitted to the Division of Accounting.
