

Design Standards Letter

Letter Number: G-1970-24

Letter Date: 05/07/1970

Effective Date: 05/07/1970

Section/Plan No.: P609.60

Subject: Ditch Liner

Body

ALL DIVISION AND DISTRICT ENGINEERS

A copy of Drawing 609.60 and the Job Special Provision for Ditch Liner is attached.

This new item of work replaces Paved Ditch, except at locations where esthetics are of prime importance.

Ditch Liner was developed to reduce the cost of "concrete type" ditch protection. Its material and construction requirements are considerably less restrictive than required for Paved Ditch.

The criteria presently being used to determine paved ditch location is to be used for Ditch Liner, except the "n" factor (Mannings) for Ditch Liner will be 0.03.

Payment will be made under Item 609-60.00, Ditch Liner, per square yard. This item will be added to the Computer Stored Bid Item list for the Computer Processing of Plans.

The above instructions shall apply to all future plans submittals when applicable.

Leland D. Fletcher
Division Engineer
Surveys and Plans
