

Design Standards Letter

Letter Number: G-1970-46

Letter Date: 09/25/1970

Effective Date: 01/01/1971

Section/Plan No.: P732.00

Subject: Revised Standard Drawing 732.00 Flared-End Sections

Body

ALL DIVISION AND DISTRICT ENGINEERS

Attached are copies of revised Standard Drawing 732.00. The following changes have been made on these drawings.

1. The designation of the point for measurement of pipe length has been revised on Sheet 1 of 2 of this drawing. This change will provide a consistent point of measurement when group pipe is specified.
2. The same designation for measurement of pipe length has been indicated on Sheet 2 of 2 in the typical cross-section for metal pipe and pipe arches.
3. A correction in a dimension has been made on the Type 3 Connection for round pipe to read 12" instead of 1" which was an error on the original drawing.

The use of this drawing will be effective beginning with the January, 1971 Letting.

Leland D. Fletcher
Division Engineer
Surveys and Plans
