ALL DIVISION AND DISTRICT ENGINEERS

Attached are copies of revised Standard Drawings numbered 703.15A, 703.20A, 703.24A and 703.30A

These drawings have been revised to provide for the method of detailing clearance of bars, in conformance with the Concrete Reinforcing Steel Institute. In addition, Standard Drawing 703.30A has been revised by listing the bar size designations by whole numbers, such as No. 5, rather than as a fraction of 5/8".

These revisions are effective with the July, 1971 Letting.
