

Design Standards Letter

Letter Number: G-1972-07

Letter Date: 05/10/1972

Effective Date: 06/01/1972

Section/Plan No.: P502.00, P502.10, P732.00, P903.03

Subject: Revised Standard Drawings

Body

ALL DIVISION AND DISTRICT ENGINEERS

Attached are copies of revised Standard Drawings numbered 502.00C, 502.10A, 732.00D and 903.03J.

Drawing 502.00C. This drawing was revised to correct minor drafting errors, such as the "slash" marks in fractions.

Drawing 502.10A. Minor spelling changes and fraction changes from inches to one-half pavement thickness.

Drawing 732.00D. Revised Sheet 2 of 2 by adding the note "Spot Welded, Bolted or Riveted", which is to apply to the elevation sections, as noted on the drawing.

Drawing 903.03J. This drawing has been revised extensively. There are now six sheets rather than seven.

Sheet 1. Notes have been added providing for size and number of shims; permits either the designation ASTM A 325-66B or ASTM A449-65 for High Strength bolt size 1/2" x 2-1/2" for Pipe Posts; and the kind of anchor bolts to be used. Also, hinge plate details have been expanded.

Sheet 2. Additional details have been shown for permissible sleeve welding and welding bottom plate. The Re-Bars welded to the bottom of the sleeves are No. 3 bars.

Sheet 3. No changes

Sheet 4. This is a combined drawing of old sheets 4 and 5. Steel Zee Bar Assemblies have been deleted, along with the Zee Bar Tables. The Overhead Sign Mounting on Tubular Steel Support drawing has been deleted.

Sheet 5. This sheet is old Sheet 6. This sheet covers sign mounting details for Guide Signs, having been completely revised.

Sheet 6. This sheet is old sheet 7, and has been almost completely revised.

The above revised Standard Drawings will be effective with the June, 1972 Letting.

James F. Roberts
