

Design Standards Letter

Letter Number: G-1981-03

Letter Date: 07/23/1981

Effective Date: 08/01/1981

Section/Plan No.: S0503, S0616

Subject: Revised General Special Provisions and Form SP-14

Body

ALL DIVISION AND DISTRICT ENGINEERS"

Attached are copies of revised Form SP-14, and General Special Provisions.

All previous General Special Provisions have been included in the 1981 Edition of the Missouri Standard Specifications for Highway Construction except for those shown on the revised Form SP-14.

A brief description of the latest revisions follows:

Traffic Control Plan Sec. 616. All numbers pertaining to the section have been changed to the 616 series.

Portland Cement Concrete-Volumetric Batching and Continuous Mixing. A sentence has been added in the fourth paragraph stating that calibration of the admixture and water proportioning devices shall be accomplished by weight or volume.

Safety Projects. The section number in the second paragraph changed to comply with the 1981 Edition of the Standard Specifications.

Errata Sheet. This sheet shows the corrections to the 1981 Edition of the Standard Specifications.

Sec. 503. The revisions to the Standard Specifications require that the approach slab and the contiguous pavement be placed as a continuous unit in order to expedite construction and improve the riding ability.

The above revisions are effective with the August 1981 letting.

James F. Roberts
Division Engineer
