

Design Standards Letter

Letter Number: G-1989-10

Letter Date: 06/12/1989

Effective Date: 07/01/1989

Section/Plan No.: S0103, S0402, S0107, S0108, S0109, S0301, S0401, S0402, S0403, S0404, S0502, S0613, S0712, S1015

Subject: Revised General Special Provisions and Form D-14

Body

Attached are copies of revised General Special Provisions and Form D-14.

A brief description of the latest revisions follows:

D-14. Sec 103 Award and Execution of Contract and Sec 402 plant Mix Bituminous Surface Leveling have been added.

Sec 103. This revision clarifies the acceptability of sureties.

Sec 107. An additional sentence has been added to require the contractor to furnish proof of insurance.

Sec 108. Revised to clarify assessing of working days and liquidated damages and to further clarify sureties continued acceptability.

Sec 109. Revised to clarify payment of material allowance.

Secs 301, 401, 402 and 403. These sections have been revised to add the requirement that the contractor furnish an oven in the field laboratory.

Sec 404. Numerous revisions to this section have been made in order to implement plant requirements presently included in contracts by job special provisions.

Sec 502. Revised to exclude any portland cement concrete lane which abuts an existing lane not constructed under the same contract from profilographing requirements.

Sec 613. Revised to add additional requirements for portland cement concrete

patches intended to be made and opened to traffic the same day.

Sec 712. Revised the basis of structural steel payment to plan quantities.

Sec 1015. Tables III and IV in this section have been revised to add penetration grade 40-50 and viscosity grade AC-2.5 asphalt cement.

The above revisions are effective with the July, 1989 letting.
