

Design Standards Letter

Letter Number: G-1990-07

Letter Date: 09/06/1990

Effective Date: 09/06/1990

Section/Plan No.: None

Subject: Construction Signs - Resurfacing Projects

Body

General Letter No. 1, 1990 provided guidelines for using WO22-5 "No Passing Zones Unmarked" signs on resurfacing projects.

The sketch furnished with General Letter No. 1, 1990 has been revised to require the contractor to install WO22-5 signs on non-portable mountings. The special provision furnished with General Letter No. 1, 1990 will no longer be required as a job special provision on resurfacing projects where the contractor furnishes, installs, maintains, and removes the WO22-5 signs.

Attached is a copy of the revised sketch to be used as a guideline for incorporation into the traffic control plan on resurfacing projects.

This revision is effective in the October, 1990 letting.
