

Design Standards Letter

Letter Number: G-1991-13

Letter Date: 10/18/1991

Effective Date: 01/01/1992

Section/Plan No.: S0301, S0304, S0702, S0712, S0803, S0902, S1043, S1045, S1048

Subject: Revised General Special Provisions

Body

Attached are revised General Special Provisions and a revised form D-14 which will be effective in the January, 1992 letting. Please note the revisions to the errata sheets also.

Sec. 301: Plant Mix Bituminous Base Course.

Section 301.3 is revised. The present passing No. 30 sieve is revised to 10-35.

Sec. 304: Aggregate Base Course.

Subsection 304.4.4 is revised. Measurement of aggregate base course is revised.

Sec. 702: Bearing Pile.

Subsection 702.4.7 is revised. The revision eliminates use of System B Paint and uses System C Inorganic Zinc-Aluminum Vinyl Paint.

Sec. 712: Structural Steel Construction.

Sections 712.12 and 712.13 and all subsections were deleted and revised to eliminate any reference to lead base paint.

Sec. 803: Sodding.

Section 803.2 is revised. Revision eliminates maximum length of 9 feet for sod strips.

Subsection 803.3.2 is revised. Revision allows adjustment as necessary during placement of sod.

Sec. 902: Traffic Signals.

Subsection 902.510 is revised. The revision replaces two coats of aluminum paint with one coat of inorganic zinc and one coat of

aluminum vinyl when painting exterior surfaces of controller cabinets.

Sec. 1043: Fence Material.

Subsection 1043.2.10 is revised. The revision eliminates the use of red lead paint.

Sec. 1045: Paint for Structural Steel and Wood.

Revises the entire section to eliminate the use of red lead in paint systems.

Sec. 1048: Pavement Marking Materials.

Subsection 1048.4.6 is revised. Certification and Acceptance of drop-in glass beads have been revised.
