

Design Standards Letter

Letter Number: **G-1992-25**

Letter Date: **12/15/1992**

Effective Date: **12/15/1992**

Section/Plan No.: **None**

Subject: **Temporary Erosion Control**

Body

For projects requiring temporary erosion control, regardless of the acreage involved, the special provision that should be used is on tape in the headquarters design office and is titled "Temporary Erosion and Sediment Control." If erosion control measures are required, please call for this special provision to be inserted in the job special provisions. It is the district personnel's responsibility to prepare the plan sheets detailing erosion control measures. The special provision titled "Temporary Project Water Pollution Control (Soil Erosion)" is not to be used. It has been deleted from the D-14 sheet. This change is effective with the March, 1993 letting.
