

Design Standards Letter

Letter Number: G-1993-09

Letter Date: 09/07/1993

Effective Date: 09/07/1993

Section/Plan No.: D4-01

Subject: Filing of R/W Plans - (No Condemnation Required)

Body

At a recent statewide Design Engineer's meeting, a question was raised as to what signature or seal is required for filing right of way plans when NO condemnation is involved.

It has been determined that the Chief Engineer's seal should be included on all plans filed for right of way purposes. Therefore, when all right of way is obtained entirely by negotiation, the Title sheet for those plans shall be sent to the Design Division Headquarters Office for the Chief Engineer's seal and will be returned to the district. The final right of way plans approved by the district should then be filed by the district in accordance with Section 4-01.8 of the Policy Procedure and Design Manual.
