

Design Standards Letter

Letter Number: **G-1994-15**

Letter Date: **11/27/1994**

Effective Date: **12/01/1994**

Section/Plan No.: **S0203, S0501, S0502, S0616, S0703, S0801**

Subject: **Revised General Special Provisions and Revised D-14 Form**

Body

Attached are revised General Special Provisions and a revised D-14 Sheet which will be effective with the December 1994 letting. Below is a brief summary of the revisions.

Sec 203: Roadway and Drainage Excavation, Embankment, and Compaction
Section 203.2.3.1 is revised to correct the regulation for "All Other Wells." The regulation should read "10 CRS 23-3.110." require documentation of the registration.

Sec 501: Concrete

Various sections are revised to delete references to outdated equipment and methods, delete redundancy and to modify method specifications.

Sec 502: Portland Cement Concrete Pavement

The entire section is revised to delete references to outdated equipment and methods, delete redundancy and modify method specifications.

Sec 616: Traffic Control Plan

Section 616.3.6 and 616.3.7 are revised to require the contractor to set up work area lighting so that it does not create a blinding effect on traffic.

Sec 703: Concrete Masonry Construction

Section 703.3.14.4 is revised to delete the use of a lightweight longitudinal float in lieu of a straightedge for checking the riding surface on bridge decks.

Sec 801: Fertilizing

Section 801.2.2.2 is a new section added to provide requirements for bagged agricultural lime.

Section 801.2.3 is revised to delete the requirements for laboratory testing and to require compliance with Missouri

fertilizer laws.
