Subject: Computer Stored Pay Items

Body

 Questions concerning the distribution of revisions to bid items should be directed to Central Office, Jeff Campbell (573) 526-2920 or Travis Koestner (573) 526-2923.

NOTE	EXPLANATION
1	The following listing shows item numbers in the computer pay items database (Both English and Metric pay items) that were added, revised or made obsolete and are effective immediately. A complete listing of computer stored pay items can also be found at the following website. http://www.modot.org/business/contractor_resources/biditemslisting.htm
2	For pay item revisions that involve only a change in item description, the item number will not change. For a material or process change, or a change in units or type, that will affect the price history of an item, an alphanumeric character will be added at the end of the existing number to indicate a revised item. For example, 403-60.00, if revised would become 403-60.00A. This process eliminates creating an excessive amount of new numbers in the database.
