Subject: Revisions to Job Special Provision

Body

Questions concerning the revisions to the job special provisions should be directed to Brian Williams, Central Office, Engineering Policy Group, at 573-751-9254 or myself at 573-751-3813.

The following revisions to the job special provision database are a result of a combined effort to provide all engineering policies through a central location. These revisions incorporate all special provisions, Design and Materials, into the database with a new naming convention being implemented. The naming convention provides a generic format while listing a contact division for inquiries. Current job special provisions can be viewed on the MoDOT Web Site at http://www.modot.mo.gov/business/standards_and_specs/jobspecialprovisions.htm under the heading "Standards and Specifications".
