

Design Standards Letter

Letter Number: P-1982-04

Letter Date: 03/30/1982

Effective Date: 03/30/1982

Section/Plan No.: None

Subject: Typical Sections SP-50 (New) and SP-51C (Revised)

Body

ALL DIVISION AND DISTRICT ENGINEERS:

Attached are copies of the above noted Typical Sections.

SP-50: This is a new drawing and should be used only for ramps on diamond interchanges. The straight line cross slope shown on this drawing should reduce costs and improve the performance of the ramp pavements.

SP-51C: This drawing should be used for ramps on other than diamond interchanges. Reference to diamond interchanges has been deleted from this drawing.

These drawings should be implemented at the stage of those projects for which the interchange ramps have not been designed. Changes in the design of ramps on plans that have progressed past the design stage will be at the discretion of the District Office.

James F. Roberts
Division Engineer
