

Design Standards Letter

Letter Number: P-1982-05

Letter Date: 04/09/1982

Effective Date: 06/01/1982

Section/Plan No.: P606.00, P606.20, P606.22, P606.30, P903.02

Subject: Revised Drawings

Body

ALL DIVISION AND DISTRICT ENGINEERS:

Attached are copies of the above noted revised Standard Plans. A brief description of the revisions follows:

606.00Q, 606.20G, 606.22D, and 606.30D. A note has been added permitting the contractor to furnish continuously welded guard rail posts as an option to the presently permitted rolled shapes.

903.02S Sheet 6 of 7. On Interstate shields the button reflectors have been eliminated and reflective sheeting is now specified. This revision permits a reduction in the shield size which reduces the size of the sign on which the shield is placed. The dimensions table for guide sign use and the first two paragraphs in the General Notes have been revised to reflect this change.

The above revisions are effective with the June, 1982 letting.
