Subject: Revised and Deleted Drawings and Form SP-2

Body

Attached are copies of the above noted revised Standard Plans with revisions as follows:

616.10F Sheet 2 of 2, The size requirement for the Loose Gravel sign has been reduced to 36" X 36" which changes WO8-7b to WO8-7a.

712.40D Revised to require the installation of bar chairs when needed.

901.00N and 901.01S Details for the Preformed Bull Box have been revised.

901.12B thru 901.25C A general note has been added pertaining to lightning arrester.

902.10H Details for the preformed pull box have been revised.

902.40G Details for the sign bracket assembly have been revised.

902.70B A general note has been added pertaining to grounding of guy wires.

903.02V On Sheet 3 the mounted bracket details have been revised because of steel shapes that are no longer available.

903.03AH This drawing now has 5 sheets. All signs are now mounted on breakaway assemblies. All reference to non-breakaway posts has been deleted. On Sheet 1 steel shapes for posts have been revised to conform to industry availability and the general note for shims now permits aluminum or aluminum-alloy as well as brass. On Sheet 2 a note has been added to require the holes in the bolt retainer to be 1/16"

larger than the required bolt. On Sheet 5 the size of the fastener for object and mile markers has been revised to 5/16".

Drawings 712.41C and 806.00C have been deleted from the Standard Plans due to these items no longer being used.

The above revisions are effective with the October, 1986 letting.
