

# Design Standards Letter

Letter Number: **P-1991-02**

Letter Date: **09/04/1991**

Effective Date: **09/04/1991**

Section/Plan No.: **P903.02**

Subject: **Revised Drawings**

## Body

-----  
Enclosed are copies of Revised Standard Plans which are effective with the November, 1991 letting.

**903.02y 1 of 7: Notation explaining sign type, reflective sheeting type, and legend and border has been added. Sign D9-2 and D9-2b have been added to this sheet.**

**2 of 7: Reference to use STR24 signs for shoulder mount signs and STB24 signs for overhead signs on interstate and freeway systems was deleted. Notation explaining sign type, reflective sheeting type, and legend and border has been added. To improve readability of the cardinal directional markers, the first letter of the cardinal direction word has been made larger. The term "marker" has been changed to "shield".**

**3 of 7: Notation explaining sign type, reflective sheeting type, and legend and border, has been added. Reference to use SHR24 signs for ground mounted signs and STB24 signs for overhead signs on the interstate system was deleted. Notation stating that all bracket material is to be included with the cost of the sign has been added.**

**4 of 7: Revisions to this sheet consist of adding warning signs as well as regulatory signs in the title block. .**

**Notation explaining sign type, reflective sheeting type, and legend and border, has been added.**

**5 of 7: The term "sheilds" on this sheet has been revised to**

**"markers". Notation explaining sign type, reflective sheeting type, and legend and border has been added.**

**6 of 7: Notation explaining sign type, reflective sheeting type, and legend and border has been added.**

**A note stating that interstate shields shall be clear coated, has been added.**

**7 of 7: Notation explaining sign type, reflective sheeting type, and legend and border has been added. The title block has been revised to include route shield and marker assemblies. Other general wording has been revised.**

**In general, the main reason for this standard plan revision is to delete the use of baked enamel on all signs and to implement the use of reflectorized signs. Sign summary sheet D-30 and computer bid items are also being revised and will be distributed separately.**
