

Design Standards Letter

Letter Number: P-2002-04

Letter Date: 08/30/2002

Effective Date: 08/30/2002

Section/Plan No.: None

Subject: Annual Edition of the Missouri Standard Plans for Highway Construction

Body

Since 1996, MoDOT has issued an annual edition of the Standard Plans and for the last few years you have received it about this time of year. This year, an annual edition of the Standard Plans will not be printed. The next annual edition of the Standard Plans will be printed and distributed in July 2003.

The primary reason the annual edition will not be printed this year is that the ongoing performance re-write of the specifications is expected to introduce many new revisions to the drawings. These revisions would go into effect shortly after the annual edition would be printed.

The drawings will also continue to be updated on a quarterly basis to district MicroStation servers. The most recent versions of the Standard Plans will also continue to be available on MoDOT's website, <http://www.modot.state.mo.us>. A letter that lists the latest quarterly revisions is available on the Design Standards Letters database for easy reference.
