

Design Standards Letter

Letter Number: **P-2003-03**

Letter Date: **10/10/2003**

Effective Date: **01/01/2004**

Section/Plan No.: **P203.02F, P626.00B**

Subject: **Supplemental Revisions to the Missouri Standard Plans for Highway Construction**

Body

Questions concerning the distribution of the Supplemental Revisions to the Missouri Standard Plans for Highway Construction should be directed to General Headquarters, Keith L. Smith (573) 751-4659 or Bruce Green (573) 751-9248.

These revisions will be effective with the January 2004 bid opening. Below are the revisions to the Missouri Standard Plans for Highway Construction since July 1, 2003.

NOTE	EXPLANATION
1	The following revisions are effective with the January 2004 bid opening.

STD. PLAN NO.	DESCRIPTION OF REVISION
203.02F	<i>Sheet 1 of 2.</i> The 2' (600 mm) rock base thickness has been reduced to 18" (450 mm) in the "In Rock over Entire Width of Roadbed With 18" (450 mm) Rock Base" diagram. A Job Special Provision, DSP-03-09, is being issued and should be used in all jobs with rock base until Sec 303 revisions are issued as a part of the pending performance specifications. The rock base pay items are also being revised. The furnishing and placing of rock base are intended to be separate pay items and the bid items are being corrected accordingly. Rock base should be used for all light, medium and heavy duty pavement whenever available.
626.00B	General revision of the standard plan, which was re-titled "Shoulder Rumble Strips". The plan now includes two "Roadway Plan" diagrams, two cross-section diagrams and examples of rumble strip layouts for intersections and acceleration and deceleration lanes.
